

III A,B,C 2019-2020

Rosie Hillesley

Ranjana Raj

Eva Maria Motti

Our aim is to work with the Italian teachers to enable the children to become more self-reliant and independent in every way. Our children will also learn to think creatively, to be sensitive to others and to work co-operatively.

We shall be consolidating and extending the English vocabulary taught in previous years by listening to, learning and creating poems, stories, songs and nursery rhymes that use the past, future and present tenses. They will be encouraged to ask and answer questions, to talk about themselves, describe the people and animals they love and express their feelings and opinions on different subjects like food, clothes and cars.

We shall continue talking about daily routine and helping them to understand the passage of time by talking about birthdays, the days of the week, the months and the seasons with the help of a calendar.

In the field of maths, the boys and girls will be learning to make deductions, quantify and recognise numbers. They will also be learning to count and to recognise shapes and sizes.

In the field of literacy, the children will also become aware of letters and their sounds and how words rhyme in English. They will be encouraged to love books and what they contain.
